# LEONARDO VALDEZ – FRONTEND ENGINEER

Argentina | vleonardojuanpablo@icloud.com | Portfolio | LinkedIn

## SUMMARY

Frontend Engineer with over 3 years of experience specializing in **Next.js** and **React.js**. Passionate about building secure, scalable, accesible and high-performance applications, I have consistently reduced load times by up to 35% and boosted user engagement by 40% in previous roles.

## EXPERIENCE

### Bettershore                                                                                   Switzerland
Frontend Engineer (Semi-Senior)                                                           *2025 - Present*

- Developed and maintained advanced **Next.js** and **React.js** applications that reduced load times by up to **35%** and improved user engagement by **40%**.
- Maintained **direct communication with a major Swedish client**, who has expressed high satisfaction with the quality and innovation of the solutions delivered..
- Integrated **advanced caching, lazy loading, bundler reduction,** and other performance optimization techniques, significantly boosting application speed and user satisfaction.

### Globant                                                                                            Argentina
Frontend Engineer (Intern)                                                                            *2024*

- **Led the architectural design** for the **Gloobcamp** project, enabling the seamless integration of five new functionalities.
- **Mentored team members** in advanced Next.js and TypeScript techniques, **resulting in a** 50% improvement in **autonomous problem-solving skills**.
- Refactored core components, achieving a **30% boost in loading speed** and perfecting Lighthouse performance scores for accessibility and overall performance.

### Professional Independent                                                                Argentina
Fullstack Engineer - E-commerce & Business Management                        *2022 - 2024*

- **Delivered end-to-end freelance projects** leveraging **React.js**, achieving an average **30%** performance improvement across client applications.
- **Partnered directly with clients** to capture requirements, design UI/UX prototypes, and build scalable web solutions, maintaining a client satisfaction rate above **90%**.
- **Developed custom solutions** integrating modern front-end libraries and RESTful APIs, contributing to a **20%** increase in project revenue.
- **Managed complete project lifecycles** in agile settings, coordinating with multidisciplinary teams to ensure on-time delivery and high-quality outcomes.

## SKILLS
